Prices Are Subject To Change

- Many outside forces are regularly affecting prices on promotional products, and the pricing you find in our catalog is merely an estimate based on the last known cost. For more accurate pricing, please contact us for a quote.
- It is the industry standard for some vendors to produce your customized products within an over/under margin. This means you may end up with a few more (or less) than you initially ordered. Please be prepared for that and plan accordingly.

Things To Remember

1. Design time (billed at \$79.95 per hour) and shipping are additional. Design time is different from any listed setup charges.
2. **An order must be placed before a proof can be sent.** When the proof is approved, it will move into production.
3. Design time is billable even if the order is canceled before production.

Writing

Branded writing instruments make for fantastic giveaways because they are inexpensive, attractive, and useful.
