The PA Furniture Builders was established in 2010 to support and enhance the furniture manufacturing industry in Pennsylvania as well as help retail stores connect with these craftsmen and make their beautiful American-made furniture accessible to people across the country.

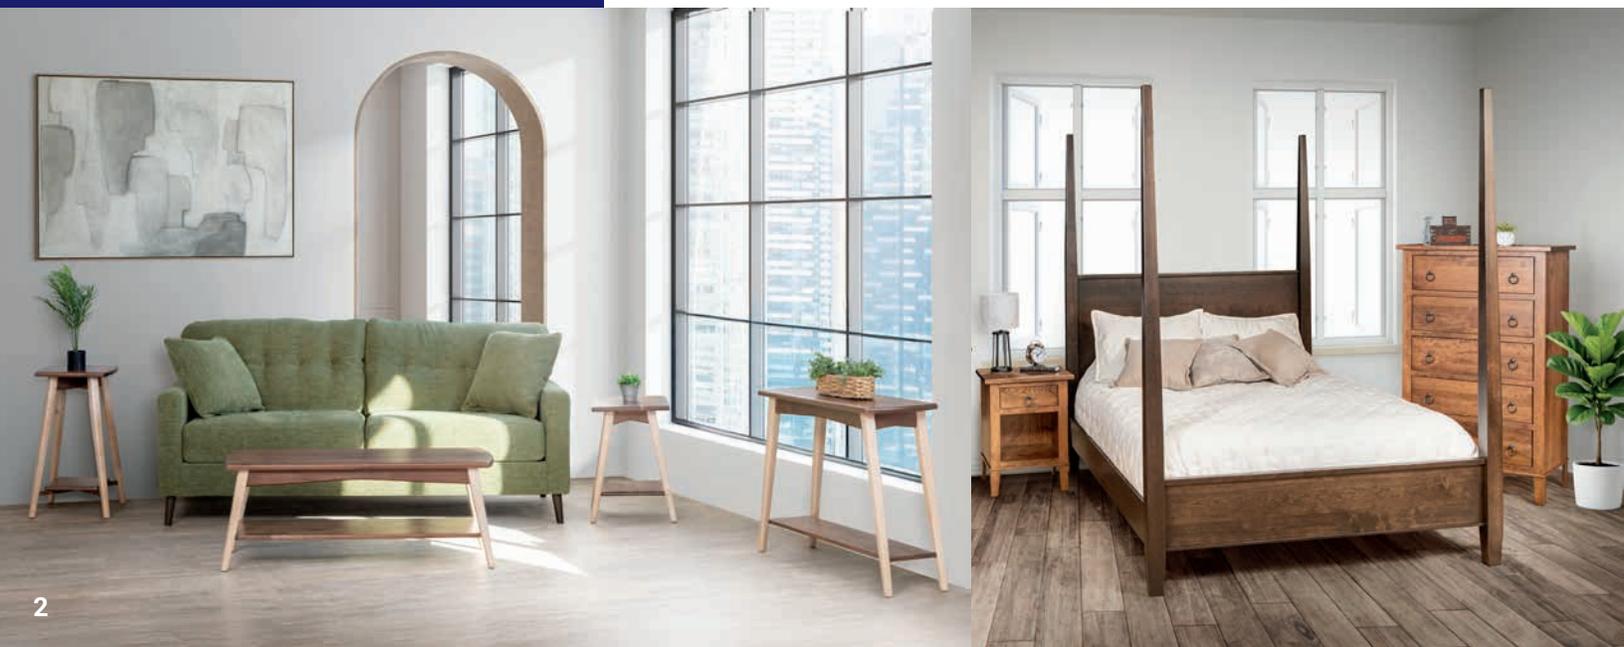

Through cooperation and support, the PA Furniture Builders seek to provide resources to Pennsylvania furniture manufacturers so they can thrive in an ever-changing market. We see the value in working together so we can provide our dealers with unparalleled quality and customer service.

As the market changes and low price imports and online retailers continue to grow it is increasingly important that we work together so builders and stores can thrive. That thought was at the root of our decision to form the PA Furniture Builders, and is a driving force behind the decisions we make today.

In 2019 the decision was made to host a Customer Appreciation Day to connect with our dealers and work together to build our businesses. Buyers enjoyed the intimate and laid back environment, and noted it was a much different experience than previous shows they had been to. We held the Customer Appreciation Day for 3 years, and in 2024 we made the decision to expand into a furniture show.

OUR MISSION

is to foster cooperation among furniture builders, strengthen our industry, and share valuable information, all while respecting our heritage and ethical values.
